SUMMARY

Final-year B.Tech (CSE – AI & ML) student at Gitam University graduating 2027, with hands-on experience designing and deploying full-stack applications using Node.js, Express.js, React.js, JavaScript, SQL, and REST API design. Comfortable across the stack, with a demonstrable portfolio of live, publicly hosted projects. Completed a Web Development internship, and is seeking an SDE Intern role to contribute to scalable server-side architecture in a fast-paced startup environment.

TECHNICAL SKILLS

Languages: JavaScript, Java, SQL

Backend & APIs: Node.js, Express.js, REST API design & documentation

Frontend: React.js, HTML, CSS, Responsive Design

Databases: MongoDB, SQL

Version Control & Tools: Git, GitHub, VS Code

Cloud & Deployment: Vercel, Render, MongoDB Atlas, AWS (learning)

CS Fundamentals: Data Structures & Algorithms, Operating Systems, DBMS

EXPERIENCE

Web Development Intern | AICTE – 6-Week Internship

Jul 2025

- Built a responsive, scalable multi-page web application using HTML, CSS, and JavaScript with cross-browser compatibility and mobile-first design principles.
- Integrated OpenWeatherMap and Unsplash REST APIs using async/await with robust error handling, JSON parsing, and dynamic DOM manipulation without page reloads.
- Structured the codebase using modular, reusable JavaScript components to manage application state and improve long-term maintainability – a foundation for reliable, enterprise-grade SaaS features.
- Gained practical exposure to debugging, testing, and iterative deployment workflows in a real-world software engineering environment.

PROJECTS

Sunrise Agri Products – www.sunriseagriproduct.in | React.js, Node.js, Express.js, MongoDB, REST APIs

- Developed and deployed a full-stack agriculture product management application with secure authentication, REST APIs, and real-time database integration.
- Designed and documented backend services and RESTful endpoints in Node.js/Express.js, covering product management, invoicing, and payments.
- Deployed and maintained the application across multiple cloud platforms (Vercel, Render, MongoDB Atlas); built responsive dashboards for end users.

Travel Explorer | HTML, CSS, JavaScript, REST APIs

May 2025

- Consumed Unsplash and OpenWeatherMap REST APIs using async/await; handled rate limits, error states, and JSON response parsing for real-time, reliable data rendering.
- Built a dynamic city search interface with live weather data and location images rendered via real-time DOM manipulation, without page reloads.
- Applied CSS media queries and fluid grid layouts for a seamless, responsive experience across all screen sizes.

EDUCATION

Gitam University, Bengaluru, Karnataka

Jul 2023 – Jul 2027

B.Tech – Computer Science Engineering (AI & ML), CGPA: 8.3

Chaitanya Junior College, Nandigama, Andhra Pradesh

Apr 2021 – May 2023

Intermediate (MPC) – 88.8%

Narayana E-Techno School, Nandigama, Andhra Pradesh

Apr 2020 – Apr 2021

SSC – 99.8%

CERTIFICATIONS & ACHIEVEMENTS

- AICTE Web Development Internship – Completion Certificate
- Smart India Hackathon (2024, 2025) – National-level product ideation & development participant
- Letter of Recommendation – Future Skills Education Foundation
